

## What is a Micro Market?

Micro markets are the perfect solution for a university or business that wants to provide food options for students, employees or visitors. ***A micro market is like a small store inside a business that is comprised of shelves and coolers that hold products employees can buy without having a cashier present.*** We can set up a custom micro market kiosk for your location that is regularly stocked with a variety of healthy food choices and snacks. With a self-checkout that accepts cash, card, or smartphone payments, no employee is needed to monitor your micro market. Sitka Vending offers quick restocking for your micro market when needed.

Contact Sitka Vending today for a free consultation on your needs. ***New customers can receive a 10% discount off their first micro market kiosk order.*** We look forward to setting up a custom solution to fit your unique business needs. Call 801-316-8463.

## Clients Using Micro Market Vending

Your custom micro market can be stocked with healthy food and snack options like salads, fresh fruits, sandwiches, wraps and cold-pressed juices. ***An easy-to-use micro market can be the perfect food solution for the following types of clients:***

- **Education:** College students and staff are more likely to make healthy food choices with a convenient micro market in place. It's like having a convenience store right in

your location!

- **Corporate Offices and Small Businesses:** A micro market is a great perk to offer your employees and can be a nice enhancement to your corporate wellness program.
- **Healthcare:** A busy hospital or health clinic can easily set up a micro market near waiting rooms, for a more personalized and welcoming option than a traditional vending machine.
- **Hospitality:** On-the-go professionals and people on vacation appreciate not having to leave their hotel to find a convenience store.
